

Amanda Bixby, Grasshopper

Chenango Valley High School, NY.

Artist Statement

I created a teapot set by throwing it on the potter's wheel. The teapot body is composed of two individually thrown pieces, attached later, then the spout and lid were thrown on the wheel as well. Then I hand-built a handle. It was glazed with two brightly colored glazes I bought myself. This teapot is my pride and joy in my artwork, and I hope to expand into much bigger pieces later in college classes I may take. I plan to go to SUNY Broome, then I may transfer to Alfred University to take advanced ceramic classes.
