## **Artist Statement, “*Short on Time*”**

This is a piece from my AP Studio Art concentration centered around parenting. This piece in particular emphasizes the difficult task a parent has of finding time for their many daily tasks. The warped clocks in this piece emphasize the fact that this parent can only think about time and which tasks lay ahead. The unkept hair and under-eye bags on the figure at the center of this piece draws attention to the fact that, as a parent, it is difficult to take care of a child and also one’s own self. This piece is painted in acrylic paint on canvas.
