

# Thomas Batrowny, Master

---

GST Boces Welding Program. Odessa-Montour Central School, NY.

## Why I Chose Tristan Harrington

In this program, students learn all the basic skills of welding and we prepare them for a future career. Tristan had extra time and wanted to create a sculpture. I admired his creativity. I found materials for him and helped cut out shapes for his rose petals.

## Artist Statement

As a welder, I like to make some creative things myself and often give them as gifts.
