

Emily Armstrong, Master

Williamsport Area High School, PA.

Why I Chose Miguel Nunez

I am fortunate to have the pleasure of having Miguel Nunez in my Photography & Digital Media class this year. Miguel arrived to my class with his own established creative & aesthetic practices informing his own life and how he views the world. Class discussions are enriched by his thoughtful contributions. During production, Miguel creates his own zone of focus and works diligently. He creates beautiful work in both design & photography. I look forward to seeing how Miguel grows as an artist.

Artist Statement

Emily Armstrong is an interdisciplinary artist collaborating with time. In the tradition of Allan Kaprow, she explores the Blurring of Art and Life, witnessing the performance of life and the metaphors generated by this process. Combining mindfulness and computer science, Emily seeks to understand and refine her algorithms, gaining a deeper knowledge & stronger control of her own functioning through repetition and routines. In De/Fault, Emily reminds herself & others that we may not have chosen our default impulses & behaviors, but we have a responsibility to bring awareness to them and find ways to work with ourselves.
