Artist Statement

My name is Teagan Vokes and I have benefited substantially from the art classes I have taken throughout my life. My teacher Mrs. Gilroy has taught me throughout the years, and I have learned so much from her. She has greatly impacted my artistic development and makes me a better artist every day.

The piece of art I drew means so much to me. I traveled to the Fiji Islands this year and took this picture of three palm trees. I decided to draw this picture using chalk pastels. I really like working with chalk pastels because the colors are very bright, and it is easy to choose how much detail to add.
