Coudersport High School, PA.

Artist Statement

My submission is a collection of several pieces that I created during the month of October as part of the Inktober challenge. I have always loved working with ink and experimenting with hatching and linework.

How Art Classes have Impacted Me

I have taken art classes throughout all of high school and have enjoyed them every year. I have had many opportunities to try new mediums, meet other like-minded individuals, and express myself through art. Taking art classes has been a vital aspect of my education. I know that the skills I have learned and the things I've had the privilege to create in them will stay with me long after graduation into the rest of my life.
