Horseheads High School, NY.

Why I Chose Hayden Lenhardt

When I decided to participate in the Master and Grasshopper Exhibition 2024 Prospectus, I didn't hesitate to ask Hayden to join me. He has a love and enthusiasm for photography that is palpable. Hayden approaches each class assignment with thoughtfulness, appreciates feedback, and is willing to work and rework his projects. Additionally, Hayden enjoys photographing outside of class and is eager to share images of his adventures with me.

Artist Statement

In my own photography, I enjoy creating meaningful images by exploring the things, people, and world around me. If my photographs have a mission, it is to capture unexpected scenes and environments and present them in an interesting way: whether it is making images of people who are unaware that I am photographing them, finding humor in a subject matter, or capturing strong design elements.
