Wellsville Jr/Sr High School, NY.

## Why I Chose Madison Thomson

I choose Madison Thompson for her true passion for creating. Madison and I both resist emotionally. She has helped me over the years feeling that connection with creating. She has taught me to put more emotion into my work and to go back to my roots of why I started creating in the first place. Creating for me.

## Artist Statement

*Mix Media:*

*The two-piece watercolor backgrounds are created using a variety of techniques. The pen and ink drawing of the horse represents a sense of freedom we tend to lose as we get older. When we are younger we don't think about what is to come or worry what will happen. We just live and imagine. My secret emotion when I see a horse brings me back there.*
