Artist Statement

Most of my work explores sculpted busts and large thrown works. In the process of making the vessel, my main goal was to try to throw large. Utilizing sections of clay, to achieve my designed size. So, I made sure to throw a sturdy base that would be able to support the rest of the sections. I then decided to make the handles angular, complimenting the shape of the piece. To finish it off I chose a metallic glaze to emphasize the angles of my piece in the light.
