## **Artist Statement**

Creating this piece of David Bowie was a great experience and I enjoyed the process. It taught me how to identify, create and apply values accurately in graphite. I have been a fan of David Bowie since I was little and I thought that he would be interesting to draw due to his unique features and the strong value contrast of the image. I have never done a piece like this before, however I hope to continue in this process and produce more work to better my skills.
