Palisades High School. Kintnersville, PA.

Artist Statement

To create this piece, I used my love for photography and using my film camera as inspiration. I tried to capture a piece of my personality in my art to represent me and the things that I love. This clay slab box piece features the elements of a classic film camera including a film roll coiling at the top as well as used film wrapping around the bottom of the box. Each individual film "photo" has a picture painted.
