Artist Statement

In taking several classes with Mrs. Sirianni, I've found invaluable insight into what it means to create art. Throughout each class, Mrs. Sirianni provided individualized instruction on both technical skills, as well as guidance towards finding my own intrinsic motivations for creating art. Mrs. Sirianni's continued support towards myself, and my peers has allowed me to be inspired and amazed by the projects of the students around me.

My inspiration to create is always flexible, yet I feel that the constant between my images is that they each attempt to create an immersive and believable scene. I've found a passion in seeing my paintings come together as I work on them, and it's always been engaging to make each environment feel lived in as the last details are added.
