

Brooke Terwilliger, Grasshopper

Corning Painted Post High School. Corning, NY.

Artist Statement

I have benefited a lot from this art class, and my teacher Mrs. Wolf-King has helped me too. Mrs. Wolf-King has introduced me to new forms of art like printmaking, monoprinting, clay, abstraction, and cartoons. This art class helped me to be more creative, and also to decide what art classes I want to take in the future. I have learned new techniques such as complementary colors, using clay tools, and using gelli plates for printmaking. I had a lot of fun in this class, and Mrs. Wolf-King was very helpful when I needed help with something.

The clay tile I made was super fun to make. I chose to do a little frog on a lily pad because I really like frogs, and they make me happy. I also really like nature, and most of my artwork has nature in it. I chose the quote "Sometimes the little things in life are more than enough" because it helps me think to appreciate the little things in life. I used alphabet noodles to make the indents for the words, and I thought that was a really cool idea. Although I only had a couple days to work on it since I am only in school for two days a week, I managed to finish it in time.
