## Artist Statement

I have owned horses since I can first remember. When I was 5, I got my first pony. I have had Sydney for almost 13 years, but over time I have gotten too big for my little chestnut pony. However, this past summer I was given the opportunity to rescue another horse. I rescued Athena but sometimes I think that she has rescued me. In the picture I tried to capture all her markings and her kind eyes. I gave in a simple background that allows you to focus on her and her spirit.
