

Jasmine Cook, Grasshopper

Elmira High School, NY.

Artist Statement

I have learned so much from the two ceramic classes I took with Mrs. Pabody. I enjoy working with clay and trying various techniques. My Advanced Ceramics class was the best part of returning to school this year.

My pouring pot is slab built and the surface design was made by the water carving technique. The milky blue glaze on the pot emphasizes the raised surface design. The handle and spout are well formed leaving the pot with a clean look.
