

Quinn Rahr, Grasshopper

Wellsville Junior Senior High School, NY

Artist Statement

During the school day, the art room has always been a great place to go and get away from the stress and pressure of other classes. It has always been one of my favorite classes in school as it helps me to get creative and forget about the worries of other classes. This is my second year taking ceramics, and my third year taking art in high school. I have grown to be quite fond of clay and creating nice, functional, pieces of art. Learning about all the different elements that go into creating nice ceramic pieces has been really interesting. I have enjoyed getting to create art that I can take home and use in my everyday life and not just have it laying around out of obligation. Creating my own functional art that looks nice is now some of my favorite décor in my room. I have greatly enjoyed taking ceramics in school and creating functional art.
