

ESS FREQUENTLY ASKED QUESTIONS (FAQS)

Q: Why use Employee Self Service (ESS)?

A: Employee Self Service provides up to date data. ESS gives you the ability to view your own payroll and benefit related data, i.e. dates of hire, dependent coverage, insurance and retirement plans. Current and past pay statements (from 1/9/2004 to current pays) can be viewed. ESS also allows you to view your leave balances and absences.

Q: How do I access ESS?

A: You may log into the Employee Self Service portal at: <https://portal.passhe.edu/irj>. You should use your current email address and email password.

Q: Do I have to be at work to log in?

A: No, ESS is a web based portal that you can access through the internet at any location.

Q: If my information is incorrect, who do I contact?

A: If you find any conflicting information in your payroll/benefit information, please contact Beverly Dunham at ext. 4891.

Q: My leave balances in ESS are not the same as on my pay statement. Why is this?

A: Since ESS is real time information, your leave balances in ESS may reflect leave that has been accrued for the next pay cycle or leave usage that was entered after payroll was processed. However, please make sure that you are accurately tracking your leave. If you find major discrepancies you should contact Beverly Dunham at ext. 4891.

Q: What is the benefit of viewing my pay statements on-line?

A: Your pay statement will be available to view as early as Tuesday of the pay week. The funds will not be available at your banking institution until the actual pay date. ESS also provides information that is currently not reflected on our pay statement such as benefit information.

Also, for those employees that have payments made to a number of different wage types, the paper pay statement often does not have enough space to hold all of the information. When viewing your statement on line space is not an issue and all wages types are reflected.

You can also print the statements for proof of employment, for loans, and any other financial verification. Since ESS is web based, you may be able to expedite loan processing at the lending site.
