Dear Mountaineer,

Welcome to Mansfield University! Mansfield University is a special place where students explore and develop their passions, faculty challenge students to be critical thinkers, and where students participate in activities outside of the classroom to engage their full potential. We encourage you to take full advantage of our unique community during your time here and let us help you reach your goals.

Our mission is to empower all students to discover, pursue, and achieve academic, individual and leadership goals. We serve as student advocates offering a multitude of collaborative programs and services that encourage realistic self-appraisal, increased independence, and co-curricular learning opportunities. We assist students in the resolution of problems, campus community referrals, and promote initiatives that address students' needs and interests. We also serve as a resource for parents, families, faculty and staff in supporting student retention, graduation, and overall success at Mansfield University.

We would like your Mansfield University experience to be educational, engaging, productive and successful — from new student orientation to graduation. Whether you join a student organization, play on a club or University team, participate in community service opportunities, or use the Fitness Center, your active participation in these experiences will prove to be rewarding now and far into the future.

Please feel free to contact us if we can be of service. Our number one priority is to serve students, and to make the student experience at Mansfield University an enriching one. We look forward to meeting you!

Sincerely,

Christopher Bridges, PhD
Vice President, Student Affairs and Enrollment Management
